

MANOJ KUMAR GUNTREDDI

Full Stack Developer

Hyderabad, Telangana · +91-6304358295 · manojkumarguntreddy.ima@gmail.com

PROFESSIONAL SUMMARY

Full Stack Developer with 4 years of experience across Python/Django, Node.js/Express, React.js and React Native, building scalable backend systems, REST APIs and high-performance web and mobile applications. Four years in the fintech and wealth management domain contributing to live product environments at scale, now delivering enterprise internal platforms end to end. Strong in third-party API integration, workflow automation with shell scripting and Python, and AI-assisted development to improve delivery speed and code quality.

TECHNICAL SKILLS

Languages & Frameworks Python, Django, JavaScript, TypeScript, Node.js, Express.js, React.js, React Native, HTML5, CSS3, SQL, Java

Databases & Data MySQL, query tuning and optimisation, data pipelines, email and contract-note parsing, data mining algorithms

Cloud & Tools AWS, Git, Postman, VS Code, Cursor, Redash, Redmine, Cronicle API, shell scripting

AI-Assisted Development Claude AI, ChatGPT — prompt engineering, AI-assisted coding, debugging and code review

Domains Fintech · Wealth Management · REST API Development · Mobile App Development · Enterprise Internal Platforms · Data Automation

PROFESSIONAL EXPERIENCE

Full Stack Developer

Mar 2026 – Present

MPC Cloud Consulting Pvt Ltd · Hyderabad, Telangana

- Build internal enterprise modules end to end with React.js, Node.js and Express.js, owning both backend services and frontend delivery.
- Developed the Asset Declaration module, enabling employees to record and manage asset information through structured form workflows, validation logic and backend API integration.
- Built the Helpdesk module and Ticketing Tool covering the full ticket lifecycle — creation, assignment, priority tagging, status tracking and resolution workflows.
- Designed and implemented RESTful APIs in Node.js and Express.js with clean separation of concerns and a maintainable, scalable backend service structure.
- Delivered responsive React.js frontends with dynamic state management, form validation, role-based UI rendering and real-time status dashboards across all three modules.

Software Developer / Full Stack Developer

Sep 2024 – Mar 2026

Maxiom Asset Management Pvt Ltd (formerly Jama Wealth Asset Management Pvt Ltd) · Jubilee Hills, Hyderabad

- Continued full stack development responsibilities in the fintech and wealth management domain.
- Developed and implemented mobile screens for the Maxiom Wealth application using React Native and TypeScript, ensuring a seamless user experience.
- Integrated APIs for efficient data flow between frontend and backend, optimising performance and functionality.
- Optimised SQL queries and backend performance for improved application responsiveness.
- Leveraged AI-assisted development and prompt engineering (Claude AI, ChatGPT) to accelerate coding, debugging, SQL optimisation and refactoring.

Software Developer / Full Stack Developer

Jun 2024 – Aug 2024

Jama Wealth Asset Management Pvt Ltd · Financial District, Gachibowli, Hyderabad

- Transferred from Technoscion Solutions LLP as part of internal corporate restructuring with no change in employment terms; experience recognised from the Technoscion joining date per transfer letter.
- Built and deployed file uploader features on frontend and backend for seamless file uploads, data processing and database integration.
- Integrated the Cronicle API into the system, enabling direct event triggering from the backend; automated daily tasks using shell scripts and Python.
- Automated parsing of data from emails and contract notes, improving database loading efficiency; implemented data mining algorithms for actionable insights.

- Built and maintained REST APIs and integrated them with the frontend; resolved critical bugs in the Maxiom Wealth mobile app.

Software Engineer / Full Stack Developer

Sep 2023 – May 2024

Technoscion Solutions LLP · Financial District, Gachibowli, Hyderabad

- Joined as a full-time Software Engineer following successful completion of internship.
- Built APIs, database queries and reusable components from scratch, reducing development turnaround time and automating repetitive workflows.
- Automated daily manual tasks using shell scripting and Python, improving overall team efficiency.
- Contributed to core fintech product development in the wealth management domain.

Intern – Full Stack Development (Extended)

Aug 2022 – Aug 2023

Simply Grow Technologies Pvt Ltd · Financial District, Gachibowli, Hyderabad

- Internship originally offered for 6 months; extended to a full year based on performance.
- Gained hands-on experience in full stack development within a live fintech product environment.
- Worked on code, technical artefacts, designs and architecture documents under experienced industry mentors.

KEY PROJECTS

Enterprise Internal Modules — MPC Cloud Consulting

Mar 2026 – Present

React.js · Node.js · Express.js · REST APIs · SQL

- Asset Declaration, Helpdesk and Ticketing Tool modules for an internal enterprise platform, built end to end with role-based access and dynamic dashboards.

Maxiom Wealth Mobile Application

Sep 2024 – Mar 2026

React Native · TypeScript · Django · Python · REST APIs

- Developed and maintained mobile screens and API integrations for a live wealth management product, with SQL and backend performance optimisation.

Fintech Backend Automation & File Processing

Sep 2023 – Aug 2024

Python · Django · Shell Scripting · Cronicle API · SQL

- File uploader features, Cronicle-triggered event automation, email and contract-note parsing pipelines, and data mining algorithms for actionable business insights.

FREELANCE PROJECTS

Venusa Clothing Brand — Website

Jun 2024 – Present

React.js · Node.js · Remote

- Built the full website from scratch, translating design into a polished user experience and optimising performance and responsiveness across frontend and backend.

PumpFloBear — Hardware & IT Consulting Website

Remote

React.js

- Created a responsive website delivering a refreshed brand identity, transforming provided designs into a clean, functional interface.

EDUCATION

B.Com (Computers) — Andhra University

2020 – 2023
